Profile

Technical professional experienced in enterprise information systems, data-driven workflows, and technical documentation across government and laboratory environments. Skilled in Microsoft Dynamics 365, Python, SQL, QGIS, and ArcGIS Pro, with strengths in troubleshooting, data integrity, and technology-enabled operations.

Areas of Expertise

Technical Documentation – Python – SQL – Git – Data Analysis – Software Troubleshooting

Professional Experience

Field Investigator I

Houston, TX

(Harris County Pollution Control)

06/2024 – 04/2026

- Managed investigation records in Microsoft Dynamics 365, maintaining accurate and traceable case documentation from assignment through follow-up.
- Resolved data, mapping, and software issues during field investigations, supporting accurate documentation and regulatory workflows.
- Prepared technical reports documenting field observations, evidence, and case actions for regulatory and supervisory review.
- Coordinated case information with government agencies and local entities while managing a high volume of investigations.

AmeriCorps VISTA Leader

Minneapolis, MN

(AmeriCorps VISTA)

01/2023 – 01/2024

- Managed 12 projects nationwide in Salesforce, maintaining accurate project records, tracking participant progress, and supporting timely program delivery.
- Developed digital training materials and maintained program documentation, improving access to consistent resources for participants and program staff.
- Coordinated communication among internal departments and community partners, helping resolve program needs and maintain continuity across projects.
- Supported participant onboarding and program tracking by maintaining records, monitoring progress, and ensuring required information remained current.

AmeriCorps VISTA Member

Houston, TX

(AmeriCorps VISTA)

01/2022 – 01/2023

- Designed and delivered digital literacy curriculum for nonprofit educators, improving learner outcomes by 30%.
- Collaborated with 26 stakeholders across Houston and Greater Houston to coordinate resources and support program delivery.

Laboratory Technician

Houston, TX

(Spectrum Quality Standards)

05/2015 – 01/2021

- Maintained LIMS records for laboratory samples and analytical data, ensuring traceability, data integrity, and accurate documentation throughout laboratory workflows.
- Maintained production and quality documentation in accordance with ISO procedures, supporting regulatory compliance and consistent laboratory operations.
- Coordinated inventory and production workflows in a regulated laboratory environment, helping maintain material availability and prevent disruptions to laboratory activities.

Education

B.S. Geoscience

Houston, TX

University of Houston–Downtown

2018–2023

Relevant Coursework: Organic Chemistry, Inorganic Geochemistry, Biogeochemistry, Petrology, Structural Geology.
